

“ THE ONLY HOME MEDICAL SUPPLY JUST FOR MOTHERS “

Dear Health Care Provider:

Thank you for your interest in our company, Perinatal Home Medical Supply, Inc. We provide maternity home medical supply products such as electric breast pumps, lumbar support belts, compression pantyhose, and abdominal binders.

We believe that *all women should have access* to maternity home medical supply products. We are a licensed Home Medical Equipment & Services Provider in the State of Illinois and we are an enrolled provider for Illinois Healthcare and Family Services (Illinois Medicaid).

To provide these products for your patients is easy. For Illinois Healthcare and Family Services recipients, simply complete the order form (RX) and fax it to 888 404 PHMS along with a copy of the HFS card. We will ship the items to your office or to the patient's home. We will handle billing and reimbursement. We offer all products, including the Medela Pump In Style, for less than most retailers. For self pay patients, have them call us at 888 404 PHMS and we accept Visa or Mastercard.

I hope you find this information helpful. Please do not hesitate to contact me if you need any additional flyers or order forms. All information can also be found on our website.

Sincerely,

Sandie Mulcrone APN / CNM, MS
